= £2,869.25

Group Booking Discounts

If 5 delegates from the same organisation register at the same time for the same or various seminars, then the 5th delegate is free.

Presenter

Paul van der Merwe is an enterprise architecture consultant from Real IRM. He has a diverse background, beginning as a software developer, moving into IT auditing and then focussing on enterprise architecture and its related disciplines.

Over the past fifteen years, Paul has been involved in various major enterprise architecture initiatives in diverse industries - financial services, manufacturing, telecommunications, retail, mining and energy. He designs architectural framework solutions based on established enterprise architecture frameworks using industry accepted techniques and notations. These solutions provide the clients with the business, information, data, application and technology perspectives necessary to form the overall enterprise architecture.

Paul is currently the elected Chair of the Architecture Forum of The Open Group, the forum that owns TOGAF. He was an active participant in the development of TOGAF 9. He frequently presents on TOGAF, the Zachman Framework and other related EA topics. He is also a respected academic who presents a post-graduate course on EA in the Department of Informatics at the University of Pretoria.

TOGAF™ 9

Foundation - Level 1 Certified - Level 2

Paul van der Merwe

Overview

The Open Group, a vendor- and technology-neutral consortium focused on open standards and global interoperability within and between enterprises, announced the general availability of TOGAF™ version 9 on 2 February 2009.

TOGAF™ 9 provides an Architecture Development Method, Content Framework and Capability Framework that can be used as the basis for creating an organisation's enterprise architecture. It has been built up over several years through open participation and collaboration between leading industry practitioners. In addition, TOGAF™ 9 provides a variety of tools, building blocks and resources that facilitate the process and enable the design and development of enterprise architecture across four domains; Business, Data, Applications and Technology,

TOGAF is an industry standard EA framework that is available free of cost to any organisation wishing to develop an enterprise architecture for use within that organisation. More than 60 percent of the Fortune 50 and 80 percent of the Global Forbes 50 use TOGAF to reduce time, costs and risks associated with developing an EA and improve overall business agility. TOGAF certification programs exist for individuals, trainers, professional services, and tool support. These programs enable organisations to standardise on an open method for IT architecture and avoid lock-in to the proprietary methods of major vendors.

Learning Objectives

Foundation - Level 1

Upon completion of this two-day seminar, the delegate will understand the TOGAF™ 9 framework and how to practically apply it in support of the design and implementation of enterprise architecture. It will provide an overview of TOGAF 9 and will introduce the delegate to all the components of TOGAF 9. The terminology, structure, and basic concepts of TOGAF 9 will be covered as well as the core principles of Enterprise Architecture and TOGAF.

The course prepares delegates for The Open Group's Level 1 TOGAF™ 9 certification examination.

Certified - Level 2

This three-day seminar and workshop includes the benefits of using TOGAF™ to create well-designed enterprise architectures. Delegates also learn the practical application of the TOGAF™ 9 framework, building on the foundational knowledge and comprehension of Level 1, using practical scenarios to enforce concepts.

The course prepares delegates for The Open Group's Level 2 TOGAF™ 9 certification examination.

Seminar & Workshop Outline

Foundation – Level 1

This two-day course consists of detailed instruction on The Open Group Architecture Framework (TOGAF™) Version 9 in accordance with The Open Group's Level 1 TOGAF™ 9 certification requirement.

- TOGAF™ Concepts
- Architecture Views, Viewpoints & Stakeholders
- Building Blocks
- Architecture Governance
- ADM Phases
- ADM Deliverables
- ADM Guidelines & Techniques
- Enterprise Continuum & Tools
- TOGAF™ Reference Models

The TOGAF Level 1 certification examination is a closed book online examination that is administered by The Open Group. The examination consists of 40 multiple choice questions that validates the candidates knowledge and comprehension of TOGAF 9. The examination duration is one hour.

Delegates have the option of taking the exams at the end of the course or receive a certification examination voucher to complete the required TOGAF™ 9 certification examination at a Prometric centre.

All delegates will receive:

- TOGAF 9 Foundation Student Manual (to prepare for certification exam)
- TOGAF 9 Pocket Guide
- 2 hour eLearning module
- TOGAF 9 Foundation Certification Examination Voucher

Certified – Level 2

This three-day course consists of detailed instruction on The Open Group Architecture Framework (TOGAF™) Version 9 in accordance with The Open Group's Level 2 TOGAF™ 9 certification requirement.

- ADM Phases & Steps
- Migration Planning Techniques
- Stakeholder Management
- The Architecture Repository
- Guidelines for Adapting the ADM
- Architecture Content Framework
- Implementation Support Techniques
- TOGAF™ Reference Models

The TOGAF Level 2 certification examination is an open book online examination that is administered by The Open Group. The examination consists of 8 scenario-based multiple choice questions that validates the candidates ability to apply TOGAF 9. The examination duration is 90 minutes.

For TOGAF 8 Certified Practitioners only taking Level 2 a bridging exam would be an additional component that consists of 20 multiple choice questions that validates the candidates knowledge and comprehension of TOGAF 9. The examination duration is 30 minutes.

Delegates have the option of taking the exams at the end of the course or receive a certification examination voucher to complete the required TOGAF™ 9 certification examination at a Prometric centre.

All delegates will receive (If attending Level 2 only)

- TOGAF 9 Book
- TOGAF 9 Certified Certification Examination Voucher

It is not necessary for a TOGAF 8 CERTIFIED to take Level 1. Level 2 examination will automatically include a bridging exams.

However, we do recommend that delegates do both Levels 1 and 2 as Level 1 provides an overview of TOGAF 9 and will introduce the delegate to all the components of TOGAF 9.

TOGAF™ is a registered trademark of The Open Group

Audience & Prerequisites

Prior knowledge of enterprise business processes and their supporting information systems is helpful, but not mandatory. Typical delegates include:

- Enterprise Architects
- IT Architects
- Information Architects
- Technology Architects
- Application Architects
- System Integrators
- Business Analysts
- Program and Project managers
- Other business and technical specialists engaged in the development of enterprise architectures
